Profile

Highly motivated and skilled front-end developer with over one year of experience in building dynamic and user-friendly websites and web applications using modern technologies. Looking for a front-end development position to contribute my knowledge in React, JavaScript, TypeScript, Next.js, CSS, and HTML while continuously expanding my skill set.

Professional Experience

Front-End Developer | ExecuteIT | 05/2022 - 05/2023

- Developed and maintained front-end components and features for web applications using React and Next.js, resulting in improved user experience and enhanced functionality.
- Used and integrated data from RESTful APIs to display information on web applications.
- Collaborated with UX/UI designers and back-end development teams to ensure seamless integration of user interfaces and features.
- Optimizing and maintaining websites by improving their loading speed, writing reusable code, and utilizing TypeScript to catch errors early in the development process.
- Implemented responsive design to ensure consistent performance on various devices and screen sizes.
- Managed and tracked code changes, collaborated with team members, and made sure to keep track of project version control using Git and GitHub.
